

Consolidated Financial Statements

December 31, 2023

FOCUSED | EXECUTING | DELIVERING

MANAGEMENT'S REPORT

Management's responsibility for the consolidated financial statements

The accompanying consolidated financial statements of Athabasca Oil Corporation (the "Company") are the responsibility of Management. The consolidated financial statements have been presented and prepared within acceptable limits of materiality by Management in Canadian dollars in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and include certain estimates that reflect Management's best judgments.

The Company maintains systems of internal accounting and administrative controls. These systems are designed to provide reasonable assurance that the financial information is relevant, reliable and accurate and that the Company's assets are properly accounted for and adequately safeguarded. Management's evaluation concluded that the Company's internal controls over financial reporting were effective as of December 31, 2023.

The Company's Board of Directors approves the consolidated financial statements. Their consolidated financial statement related responsibilities are fulfilled primarily through the Audit Committee, which is made up of three independent directors. The Audit Committee has a written mandate that complies with the current requirements of Canadian securities legislation. The Audit Committee meets regularly with Management and the external auditors to discuss reporting and control issues and ensures each party is properly discharging its responsibilities.

Ernst & Young LLP, an independent firm of auditors, has been engaged, as approved by a vote of the shareholders at the Company's most recent Annual General Meeting, to audit and provide their independent audit opinion on the Company's consolidated financial statements as at and for the year ended December 31, 2023. Their report, contained herein, outlines the nature of their audit and expresses their opinion on the consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Athabasca Oil Corporation

Opinion

We have audited the consolidated financial statements of Athabasca Oil Corporation and its subsidiaries (collectively the Company), which comprise the consolidated balance sheets as at December 31, 2023 and 2022, and the consolidated statements of income (loss) and comprehensive income (loss), consolidated statements of cash flows and consolidated statements of changes in shareholders' equity for the years then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at December 31, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the consolidated financial statements of the current period. These matters were addressed in the context of the audit of the consolidated financial statements as a whole, and in forming the auditor's opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Assessment of the impact of estimated oil and gas reserves

We draw attention to note 3, note 7 and note 9 to the consolidated financial statements. The Company uses oil and gas reserves to deplete its development and production assets included in property, plant and equipment ("PP&E"), to assess the recoverability of deferred tax assets, to assess for indicators of impairment or impairment reversal in the Company's cash generating units ("CGUs") and if any such indicators exist, to perform an impairment test to estimate the recoverable amount of the CGU. The Company had \$1,106.7 million of PP&E at December 31, 2023. Depletion and depreciation expense was \$110.8 million for the year ended December 31, 2023, a deferred tax asset of \$403.5 million was recognized at December 31, 2023 and no indicators of impairment were identified.

The estimate of oil and gas reserves requires the expertise of independent third-party reserve evaluators and includes significant assumptions related to forecasted:

- Oil and gas commodity prices;
- Production;
- Operating costs;
- Royalty rates; and
- Future development costs.

To test the estimated oil and gas reserves, our procedures included, among others:

- Evaluating the competence, capabilities and objectivity of the independent third-party reserve evaluators engaged by the Company.
- Comparing forecasted oil and gas commodity prices to those published by other independent third-party reserve evaluators.
- Comparing the 2023 actual production, operating costs, royalty costs and development costs of the Company to those assumptions used in the prior year's estimate of oil and gas reserves to assess the Company's ability to accurately forecast.
- Evaluating the appropriateness of forecasted production and forecasted operating costs, royalty costs and future development costs assumptions by comparing to 2023 historical results. We took into account changes in conditions and events affecting the Company to assess the adjustments or lack of adjustments made by the Company in arriving at the assumptions.

We recalculated depletion and depreciation expense and evaluated whether the estimates of future taxable income were

We identified the assessment of the impact of estimated oil and gas reserves on PP&E and deferred income taxes as a key audit matter due to the significant auditor judgment, subjectivity and effort in performing procedures relating to the assumptions outlined above.

consistent with evidence obtained in other areas of the audit and involved our income tax specialists in evaluating the application of relevant tax laws and regulations used in the determination of the deferred income tax asset.

We evaluated the adequacy of the applicable disclosures in the consolidated financial statements in respect to these matters.

Other Information

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

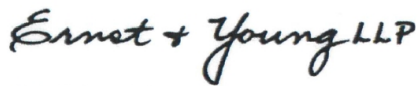

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Robert Troy Jubenvill.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended December 31, 2023.

(Tabular amounts expressed in thousands of Canadian dollars, except where otherwise noted)

1. NATURE OF BUSINESS

Athabasca Oil Corporation ("Athabasca" or the "Company") is an exploration and production company developing Thermal Oil and Light Oil resource plays in the Western Canadian Sedimentary Basin in Alberta, Canada. Athabasca was incorporated on August 23, 2006, under the laws governing the Province of Alberta. The domicile of the Company is 1200, 215 - 9th Avenue SW, Calgary, Alberta. The Company is publicly traded on the Toronto Stock Exchange ("TSX") under the symbol "ATH". These Consolidated Financial Statements ("Consolidated Financial Statements") were authorized for issue by the Board of Directors on February 29, 2024.

2. BASIS OF PRESENTATION

These Consolidated Financial Statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and have been prepared on a historical cost basis, except for financial instruments which are measured at their estimated fair value. The Consolidated Financial Statements have been prepared using the same accounting policies and methods as the consolidated financial statements for the year ended December 31, 2022, except as disclosed in Note 3. There were no changes to the Company's operating segments during the period.

3. MATERIAL ACCOUNTING POLICY INFORMATION

Principles of Consolidation and Joint Arrangements

These Consolidated Financial Statements reflect the activities of the Company and its wholly owned subsidiaries. Intercompany transactions and balances are eliminated upon consolidation. Athabasca also undertakes certain business activities through joint arrangements. A joint arrangement is established under contractual arrangement whereby two or more parties undertake an economic activity that is subject to joint control. Joint control is the contractually agreed sharing of control over an economic activity and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the parties sharing control. Athabasca only recognizes its proportionate interests in the assets, liabilities, revenues and expenses associated with joint arrangements.

Material Accounting Estimates and Judgments

The preparation of the Consolidated Financial Statements requires management to use estimates, judgments and assumptions. These judgments and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses during the applicable reporting period. These estimates relate to unsettled transactions and events as of the date of the Consolidated Financial Statements and may differ from actual results as future confirming events occur. Estimates and underlying assumptions are reviewed by management on an ongoing basis. Revisions to accounting estimates are recognized prospectively in the year in which the estimates are revised. Changes in the Company's accounting estimates and judgments could have a significant impact on net income (loss).

Included in the carrying value of property, plant and equipment ("PP&E") are accumulated depletion, depreciation and impairment charges/reversals that are determined, in part, by utilizing estimates based on Athabasca's reserves, resources, relevant market transactions and land acreage values. The estimates of reserves and resources include estimates of the recoverable volumes of bitumen, light crude oil and medium crude oil, tight oil, conventional natural gas, shale gas and Natural Gas Liquids ("NGLs"), future commodity prices and future costs required to develop and produce the assets. Reserve and resource estimates and future cash flows could be revised either upwards or downwards based on updated information from drilling and operating results as well as changes to future commodity price estimates, changes in cost estimates and changes to the anticipated timing of project development. The rates used to discount future cash flows are based on judgment of economic, regulatory and operating factors. Changes in these factors could increase or decrease the discount rate which may result in material changes to the estimated recoverable amount of the assets. Exploration and evaluation assets ("E&E") require judgment as to whether future economic benefits exist, including the estimated recoverability of reserves and contingent resources, technology uncertainty, government regulation uncertainty and the ability to finance exploration and evaluation projects, where technical feasibility and commercial viability has not yet been determined.

For purposes of impairment testing, PP&E and E&E are aggregated into cash-generating units ("CGUs") based on separately identifiable and largely independent cash inflows. The determination of the Company's CGUs is subject to judgment. Factors considered in the classification of CGUs include the integration between assets, shared infrastructures, the existence of common sales points, geography, geologic structure and the manner in which management monitors and makes decisions regarding operations. CGUs are not larger than an operating segment. Impairment test calculations require the use of estimates and assumptions and are subject to change as new information becomes available. Factors that are subject to change include estimates of future commodity prices, expected production volumes, development timing, land values, tax pools, directly comparable market transactions, quantity of reserves and resources, discount rates, recovery rates, timing of anticipated ramp-up of production, and future development, regulatory, carbon and operating costs. Changes in assumptions used in determining the recoverable amount could have a prospective material effect on the carrying value of the related PP&E and E&E CGUs.

The provision for decommissioning obligations is based upon numerous assumptions including the ultimate settlement amounts, inflation factors, credit-adjusted discount rates, timing of settlement and changes in the legal, regulatory, environmental and political environments. Actual costs and cash outflows could differ from the estimates as a result of changes in any of the above noted assumptions.

Deferred tax assets are recognized only to the extent it is considered probable that those assets will be recoverable. This involves an assessment of when those deferred tax assets are likely to reverse and a judgment as to whether or not there will be sufficient taxable profits available to offset the tax assets when they do reverse. This requires assumptions regarding future profitability and is therefore inherently uncertain. To the extent assumptions regarding future profitability change, there can be an increase or decrease in the amounts recognized in respect of deferred tax assets as well as the amounts recognized in net income (loss) in the period in which the change occurs. Tax provisions are based on enacted or substantively enacted laws. Changes in those laws could affect amounts recognized in net income (loss) both in the period of change, which would include any impact on cumulative provisions, and in future periods. Income tax filings are subject to audits and re-assessments and changes in facts, circumstances and interpretations of the standards which may result in a material increase or decrease in the Company's provision for income taxes.

In 2023, crude oil prices were impacted by various factors. These included geopolitical instability, uncertainties surrounding the production levels of key oil-producing nations, strategic supply adjustments by OPEC, and recessionary fears caused by central banks raising interest rates. Athabasca uses forward commodity price curves as an input in assessing the value of its crude oil and natural gas assets and these inputs could be affected by the unknown future impact of the factors above. Refer to Note 9 "Impairment". At December 31, 2023, Management has incorporated the anticipated impacts of the factors above in its estimates and judgments in preparation of these Consolidated Financial Statements.

All of these estimates and judgments are subject to measurement uncertainty and changes in these estimates could materially impact the consolidated financial statements of future periods and have a significant impact on net income (loss).

Accounting Policies

The following are the accounting policies which management considers material to the users of the consolidated financial statements. Accounting policy information is considered to be material if its disclosure is needed for users to understand information provided about material transactions, other events or conditions in the consolidated financial statements.

Segment Reporting

The Company's operating segments are determined based on differences in the nature of operations, products sold, economic characteristics, regulatory environments and management responsibility. Operating segments have been aggregated based on similar characteristics as follows:

- Thermal Oil - includes the Company's assets, liabilities and operating results for the exploration, development and production of bitumen from sand and carbonate rock formations located in the Athabasca region of Northern Alberta.
- Light Oil - includes the Company's assets, liabilities and operating results for the exploration, development and production of light crude oil and medium crude oil, tight oil, conventional natural gas, shale gas and NGLs located primarily in the Greater Kaybob and Greater Placid (assets sold September 14, 2023) areas, near the town of Fox Creek, Alberta.

Segment results, assets and liabilities only include items directly attributable to a segment and those items that can be allocated on a reasonable basis. There were no changes to the Company's operating segments during the year. Segmented information is presented in Note 17.

Financial Instruments

All financial instruments are assessed at initial recognition in the context of the Company's business model and the contractual cash flow characteristics of the financial assets and liabilities.

The Company has measured its financial instruments as follows:

| Financial Assets and Liabilities | |
|---|--------------------------------------|
| Cash and cash equivalents | Amortized cost |
| Accounts receivable | Amortized cost |
| Prepaid expenses and deposits | Amortized cost |
| Accounts payable and accrued liabilities | Amortized cost |
| Risk management contracts | Fair value through net income (loss) |
| Cash settled stock-based compensation liability | Fair value through net income (loss) |
| Term debt | Amortized cost |
| Warrant Liability | Fair value through net income (loss) |

Subsequent measurement of financial instruments is based on their classification. Unrealized gains and losses on financial instruments are recognized in net income (loss).

The Company classifies its financial instruments measured at fair value according to the following hierarchy based on the amount of observable inputs used to value the instrument. Assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement within the fair value hierarchy.

- Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 - Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 - Inputs that are not based on observable market data.

Transaction costs for all financial assets and liabilities are expensed as incurred, with the exception of term debt and indebtedness. Transaction costs and deferred losses related to term debt are included in the initial carrying value of the debt and the debt is subsequently carried at amortized cost using the effective interest rate method. The fair value of Athabasca's term debt is derived from quoted prices provided by financial institutions.

Cash and cash equivalents consist of cash and investments in money market instruments with an initial maturity date of three months or less.

Receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Athabasca's receivables are comprised of various accounts receivables.

Derivative financial instruments are used by the Company to manage risks related to commodity prices. All derivatives are classified at fair value through net income (loss). Derivative financial instruments are included on the consolidated balance sheet and are classified as current or non-current based on the contractual terms specific to the instrument. Gains and losses on re-measurement of derivatives are shown separately on the consolidated statement of income (loss) in the period in which they arise.

The warrants issued were classified as financial liabilities due to a cashless exercise feature and are measured at fair value upon issuance and at each subsequent reporting period, and presented net of deferred losses, with the changes in fair value and amortization of deferred losses recorded in the consolidated statement of income (loss). The fair value of these warrants is determined using the Black-Scholes option valuation model.

At each reporting date, the Company uses the expected credit loss model to assess whether any of the financial assets, measured at amortized cost or fair value through other comprehensive income (loss), are impaired. Any necessary impairment loss would be recognized based on the expected credit loss model.

Inventory

Inventory consists of heavy crude oil (i.e. dilbit), NGLs (i.e. diluent) and warehouse consumables. The carrying value of inventory includes all direct expenditures required to bring the inventory to its present location and condition, including transportation expenses. Athabasca values its inventory using the weighted average cost method and inventory is held at the lower of cost and net realizable value at each reporting period. Net realizable value is the estimated selling price less any expected selling costs. If the

carrying value exceeds the net realizable value, a write-down is recognized. A change in circumstance could result in a reversal of the write-down for inventory that remains on hand in a subsequent period.

Property, Plant and Equipment (“PP&E”)

Items of PP&E are measured using historical cost less accumulated depletion and depreciation and any accumulated impairment losses net of reversals. The initial cost of an asset comprises its purchase price, any cost directly attributable to bringing the asset to the location and condition necessary for its intended use and an initial estimate of the cost of dismantling and removing the item and restoring the site on which it is located. Included in PP&E are assets that have been transferred from exploration and evaluation assets upon the establishment of technical feasibility and commercial viability. Once Athabasca’s projects are available for use in the manner intended by management, they will either be depleted or depreciated over their useful lives depending on the nature of the asset. The costs of planned major inspection & maintenance, overhaul and turnaround activities that maintain PP&E and benefit future years of operations are capitalized. Recurring planned maintenance activities performed on shorter intervals are expensed as operating costs. Replacements outside of a major inspection & maintenance, overhaul or turnaround are capitalized when it is probable that future economic benefits will be realized, and the replaced component is derecognized. When an asset is disposed of in the PP&E phase, the carrying value of the assets sold are de-recognized from the PP&E asset pool with any difference, relative to the proceeds from the disposal, recognized as a gain or loss in net income (loss).

Light Oil producing assets that are ready for use in the manner intended by management are depleted using the unit-of-production method based on the production in the year relative to the proved plus probable reserve base, taking into account estimated future development costs necessary to bring those reserves into production. Depreciation of the Light Oil infrastructure assets is calculated using the straight-line method over the estimated useful life of the assets, which ranges from thirty-five to fifty-five years.

Thermal Oil assets that are ready for use in the manner intended by management are depleted or depreciated based on three separate components. The central processing facilities are depreciated on a unit-of-production basis over the total productive capacity of the facility. The supporting infrastructure, pumps and turnaround costs are depreciated using a straight-line basis over the estimated useful life of the components, which ranges from two to forty years. The producing oil sands assets are depleted using the unit-of-production method based on estimated proved developed producing reserves.

Depreciation of corporate assets is calculated using the straight-line method over the estimated useful life of the asset, ranging from three to ten years.

Exploration and Evaluation (“E&E”) Assets

Costs of exploring for and evaluating oil and gas activities are initially capitalized and primarily consist of lease acquisition costs, exploratory drilling to delineate resource formations, geological and geophysical costs, engineering, licensing and regulatory fees, carrying charges on non-productive assets, estimates of the reclamation and abandonment obligations incurred as a result of the exploration activities, employee salaries and stock-based compensation directly related to E&E activities. Tangible assets acquired and utilized to develop an E&E asset are also recorded as part of the cost of the E&E asset. When an asset is disposed of in the E&E phase the proceeds of the assets sold are de-recognized from the E&E asset pool with no gain or loss recognized unless the balance is fully de-recognized. E&E costs do not include general prospecting or evaluation costs incurred prior to having obtained the legal rights to explore an area, and as a result, these costs are expensed directly to the consolidated statement of income (loss) as they are incurred.

E&E assets are carried at cost on the consolidated balance sheet until both the technical feasibility and commercial viability of extracting a mineral resource is established. Upon technical feasibility and commercial viability being established, E&E assets are tested for impairment and then reclassified from E&E assets to PP&E. Technical feasibility and commercial viability of Light Oil and Thermal Oil activities are considered achieved when proved reserves are determined to exist and the Company has received approval to proceed with commercial development by its Board of Directors and, in some cases, approval from regulatory authorities.

If the technical feasibility and commercial viability cannot be proved or if a full impairment is recognized, subsequent expenditures are no longer capitalized and are recognized as exploration expense.

Impairment and Impairment Reversal

PP&E and E&E assets are tested for impairment at the CGU level at each reporting date when facts and circumstances suggest that the carrying amount may exceed the recoverable amount due to significant changes in the technological, market, regulatory, economic or legal environment. Athabasca combines PP&E and E&E assets that are in the same CGU together for the purposes of testing for impairment. The recoverable amount is determined as the greater of the CGU’s value in use (“VIU”) and fair value less costs to sell (“FVLCTS”). In assessing VIU, the recoverable amounts of the CGUs are estimated based on after-tax discounted cash flows from the Company’s Proved and/or Proved plus Probable Reserves adjusted for general and administrative expenses. FVLCTS is defined as the amount obtainable from the sale of a CGU in an arm’s length transaction between knowledgeable parties, less the

costs to dispose of the CGU. In assessing the FVLCTS, the recoverable amounts of the CGUs are estimated based on after-tax discounted cash flows from the Company's Proved and/or Proved plus Probable Reserves and any directly comparable market transactions. The FVLCTS estimates are classified as Level 3 on the fair value hierarchy. The VIU and FVLCTS recoverable amounts also include estimated land values for acreages which do not, at present, have Proved plus Probable Reserves assigned and future cash flows are estimated using appropriate inflation and discount rates which are based on the individual nature of the properties included in the CGU and the extent of future funding and development risk.

At each reporting period, PP&E and E&E assets are tested for impairment reversal at the CGU level when facts and circumstances suggest that the recoverable amount of the CGU may significantly exceed the carrying value. An impairment charge is reversed to the extent that the CGU's recoverable amount does not exceed the carrying amount that would have been determined, net of accumulated depletion and depreciation, if no impairment charge had been recognized.

Assets Held for Sale

Non-current assets are classified as held for sale if their carrying amounts will be recovered through a sale transaction rather than through continuing development or use. This condition is met when the sale is highly probable, and the asset is available for immediate sale in its present condition. For the sale to be highly probable, there must be an active program to locate a buyer and plan to complete the sale must be initiated. The asset must be actively marketed, and the sale should be expected to be completed within one year from the date of classification. Certain events or circumstances beyond the Company's control may extend the period to complete the sale beyond one year.

Immediately before the PP&E and E&E are classified as held for sale, they are assessed for indicators of impairment or reversal of impairment and are measured at the lower of their carrying amount and recoverable amount, with any impairment charge or reversal of impairment recognized in the consolidated statement of income (loss). Non-current assets held for sale and their associated liabilities are classified and presented in current assets and liabilities within the consolidated balance sheet. Assets held for sale are not depleted, depreciated or amortized.

Business Combinations

Business combinations are accounted for using the acquisition method. Identifiable assets acquired and liabilities & contingent liabilities assumed in a business combination are measured at their fair values at the acquisition date. The excess of the cost of the acquisition over the fair value of the identifiable assets, liabilities and contingent liabilities acquired is recorded as goodwill. If the cost of the acquisition is less than the fair value of the net assets acquired, the difference is recognized immediately in net income (loss). Transaction costs associated with business combinations are expensed as incurred.

Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

The Company's oil and gas activities give rise to abandonments and reclamations relating to wells and facilities. Provisions are made for the estimated cost of abandoning and reclaiming the wells and facilities and are capitalized to the corresponding asset. Decommissioning obligations are measured at the present value of management's best estimate of the expenditure required to settle the obligation discounted using the Company's credit-adjusted discount rate. Subsequent to initial measurement, the obligation is adjusted at the end of each reporting period to reflect the passage of time, changes in the estimated future cash outflows underlying the obligation and changes in discount rates. The increase in the obligation due to the passage of time is recognized as a finance cost whereas changes due to revisions in the estimated future cash outflows and discount rate are capitalized to the extent the related asset is not impaired. If the related asset is fully impaired, the change in estimate is recognized in net income (loss). Actual costs incurred upon settlement of the obligations are charged against the provision, net of any government grants received.

Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. A lease obligation and corresponding right-of-use asset ("Leased Asset") are recognized at the commencement of the lease. Lease liabilities are initially measured at the present value of the unavoidable lease payments and discounted using the Company's incremental borrowing rate when an implicit rate in the lease is not readily available. Interest expense is recognized on the lease obligations using the effective interest rate method. The Leased Asset is recognized at the amount of the lease liability, adjusted for lease incentives received and initial direct costs, on commencement of the lease. The Leased Asset is depreciated on a straight-line basis over the lease term. The Company is required to make judgments and assumptions on

incremental borrowing rates and lease terms. The carrying balance of the Leased Assets and lease liabilities, and related interest and depreciation expense, may differ due to changes in market conditions and expected lease terms.

Revenue Recognition

Athabasca classifies its revenue as being earned from sales of heavy crude oil (i.e. blended bitumen), sales from light crude oil (i.e. light/medium crude oil, tight oil and NGL condensate), sales from natural gas (i.e. conventional natural gas and shale gas), sales from other NGLs and midstream sales.

Revenue is measured based on the consideration specified in the contracts Athabasca has with its customers. Athabasca recognizes revenue when it transfers control of the product to the buyer. This is generally at the time the customer obtains legal title to the product and when it is physically transferred to the delivery mechanism agreed with the customer, including pipelines or other transportation methods.

Athabasca sells substantially all of its production pursuant to variable-priced contracts. The transaction price for variable priced contracts is based on a benchmark commodity price, adjusted for quality, location or other factors, whereby each component of the pricing formula can be either fixed or variable, depending on the contract terms.

The contracts generally have a term of one year or less, whereby delivery takes place throughout the contract period. Revenues are typically collected on the 25th day of the month following production.

Midstream revenues are recognized in the period the product is delivered and the service is provided.

Interest income on cash and cash equivalents is recorded as earned. For outstanding investments that mature in future periods, revenue is accrued up to and including the final day of the applicable reporting period based on the terms and conditions of the individual instruments. Incidental revenues are recognized in net income (loss) as earned. Royalty expenses are recognized as production occurs.

Income Taxes

Income tax is comprised of current and deferred tax. Income tax expense is recognized in the consolidated statement of income (loss) except to the extent that it relates to share capital, in which case it is recognized in equity. Current tax is the expected tax payable (receivable) on the taxable income (loss) for the period, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized on the initial recognition of assets or liabilities in a transaction that is not a business combination and does not affect profit, other than temporary differences that arise in shareholder's equity. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset on the consolidated balance sheet if there is a legally enforceable right to offset and they relate to income taxes levied by the same tax authority. A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized. Deferred tax assets are reviewed at each reporting date and are not recognized until such time that it is more likely than not that the related tax benefit will be realized. Athabasca also recognizes deferred tax liabilities on temporary differences associated with investments in subsidiaries unless the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Stock-based Compensation

The Company's stock-based compensation plans for employees, directors and consultants consist of stock options, restricted share units ("RSUs"), performance share units ("PSUs"), deferred share units ("DSUs") and phantom share units ("PUPs"). The stock options and RSUs are accounted for as equity-settled share-based compensation plans, while the DSUs, PUPs and PSUs are accounted for as cash-settled share-based compensation plans.

The fair values of the equity settled awards are initially measured using the Black-Scholes model using an estimated forfeiture rate, volatility, risk-free rate and expected life. The fair value is recorded as stock-based compensation over the vesting period with a corresponding amount reflected in contributed surplus. When stock options are exercised, the cash proceeds along with the amount previously recorded as contributed surplus are recorded as share capital. If the Company elects to pay the equity settled awards in cash, the amount previously recorded as contributed surplus is reversed up to the cash payment amount, with any additional amount being expensed immediately.

The DSUs and PUPs are cash-settled share-based compensation plans. The PSUs plan was historically accounted for as an equity-settled share-based compensation plan and is now accounted for as a cash-settled share-based compensation plan after the Company elected for the 2020 PSUs vesting in the first quarter of 2023 to be settled in cash. DSUs are expensed immediately upon grant and a liability is recognized. PUPs and PSUs fair value is expensed over the vesting period with a corresponding liability recognized. The liability under the plans is revalued at each reporting date based on the Company's closing share price.

For employees who are working on capital projects, a portion of stock-based compensation is capitalized to PP&E or E&E assets. For the remainder of employees, the compensation is expensed.

Per Share Amounts

Basic net income (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding during the period. Diluted income per share reflects the potential dilution that would occur if dilutive securities were exercised using the treasury stock method. To determine the dilutive effect of its dilutive instruments, the Company assumes that proceeds received from the exercise of "in-the-money" equity instruments are used to repurchase common shares. In any period in which there is a loss, diluted per share amounts are calculated excluding potentially dilutive securities.

Share Repurchases

The shares that are repurchased for cancellation are accounted for as a reduction in shareholders' equity. Total consideration paid includes any commissions or fees paid as part of the transaction.

Commitments and contingencies

Athabasca discloses its financial commitments, yet to be incurred, based on the minimum contractual costs at the reporting date. A contingent liability is disclosed when the possibility is considered more than remote but not yet probable, where the existence of an obligation will only be confirmed by future events, or where the amount of a present obligation cannot be measured reliably or will likely not result in an economic outflow. Contingent assets are disclosed if a future economic benefit is probable but are only recorded when recovery of the contingent asset is considered virtually certain.

Foreign Currency Translation

Transactions in foreign currencies are translated into the functional currency using the exchange rate on the transaction date. The Consolidated Financial Statements are presented in Canadian dollars which is the Company's functional currency. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of income (loss).

Government Grants

Government grants are recognized when there is reasonable assurance that the Company will comply with the conditions attaching to it, and that the grant will be received. Grants related to income are recorded in the consolidated statement of income (loss) in the period that the income is earned, or the eligible expense is incurred. Grants related to assets are deducted from the carrying value of the asset and recognized in the consolidated statement of income (loss) over the useful life of the depreciable asset.

New Accounting Policies

On January 1, 2023, the Company adopted Disclosure of Accounting Policies, which made amendments to IAS 1 Presentation of Financial Statements. The amendments require that an entity is now required to disclose material accounting policy information instead of significant accounting policies. The amendments clarify that accounting policy information may be material because of its nature, even if the related amounts are immaterial; that accounting policy information is material if users of an entity's financial statements would need it to understand other material information in the financial statements; and that if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information. There was not a material impact to the Company's Consolidated Financial Statements.

On January 1, 2023, the Company adopted Definitions of Accounting Estimates, which made amendments to IAS 1 Presentation of Financial Statements. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies, as well as the correction of errors. They also clarify how entities use measurement techniques and inputs to develop accounting estimates. There was not a material impact to the Company's Consolidated Financial Statements.

On January 1, 2023, the company adopted Deferred Tax related to Assets and Liabilities arising from a Single Transaction, which made amendments to IAS 12 Income Taxes. The amendments narrow the scope of the initial recognition exception under IAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences. There was not a material impact to the Company's Consolidated Financial Statements.

Recent Accounting Pronouncements

On May 25, 2023, the IASB issued Disclosures: Supplier Finance Arrangements, amendments to IFRS 16 that specify disclosure requirements to enhance the current requirements, which are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk. The amendments are effective for reporting periods beginning on or after January 1, 2024. Athabasca does not anticipate any material impact from these amendments on the Consolidated Financial Statements.

On August 15, 2023, the IASB issued Lack of Exchangeability, amendments to IAS 21 that contains guidance to specify when a currency is exchangeable and how to determine the exchange rate when it is not. The amendments are effective for reporting periods beginning on or after January 1, 2025. Athabasca does not anticipate any material impact from these amendments on the Consolidated Financial Statements.

4. PREPAID EXPENSES AND DEPOSITS

| As at | December 31, 2023 | December 31, 2022 |
|--|----------------------|----------------------|
| Hangingstone transportation prepayment | \$ 37,907 | \$ 40,137 |
| Prepaid expenses and deposits | 10,439 | 9,591 |
| Canada Revenue Agency deposit (Note 21) | — | 12,577 |
| TOTAL PREPAID EXPENSES AND DEPOSITS | \$ 48,346 | \$ 62,305 |
| Presented as: | | |
| Current portion of prepaid expenses and deposits | \$ 12,747 | \$ 11,899 |
| Long term portion of prepaid expenses and deposits | \$ 35,599 | \$ 50,406 |

5. INVENTORY

| As at | December 31, 2023 | December 31, 2022 |
|------------------------|----------------------|----------------------|
| Product inventory | \$ 29,977 | \$ 44,085 |
| Warehouse inventory | 12,511 | 12,815 |
| TOTAL INVENTORY | \$ 42,488 | \$ 56,900 |

During the year ended December 31, 2023, a total of \$772.6 million (December 31, 2022 - \$829.0 million) in inventory product costs were charged to net income (loss) through cost of diluent, operating expenses and transportation expenses.

6. SALE OF ASSETS

Light Oil Non-Core Asset Sale

Athabasca completed the sale of its 70% operated working interest in Greater Placid targeting the Montney, its 30% non-operated working interest in Saxon and Simonette targeting the Duvernay and other associated non-core Placid Montney assets to a private company for \$160 million in cash before closing adjustments and transaction costs (\$149.2 million net). The transaction closed on September 14, 2023 with an effective date of March 1, 2023. Athabasca de-recognized \$333.9 million of PP&E and \$6.0 million in decommissioning obligations resulting in a loss of \$178.7 million on the asset sale.

7. PROPERTY, PLANT AND EQUIPMENT ("PP&E")

| | | |
|---|----|-----------|
| BALANCE, DECEMBER 31, 2021 | \$ | 1,318,825 |
| PP&E capital expenditures | | 146,992 |
| Non-cash capitalized costs and other ⁽¹⁾ | | (17,347) |
| Depletion and depreciation ⁽²⁾ | | (119,579) |
| Impairment reversal (Note 9) | | 80,000 |
| BALANCE, DECEMBER 31, 2022 | \$ | 1,408,891 |
| PP&E capital expenditures | | 139,113 |
| Non-cash capitalized costs and other ⁽¹⁾ | | 3,415 |
| Depletion and depreciation ⁽²⁾ | | (110,798) |
| Disposals (Note 6) | | (333,896) |
| BALANCE, DECEMBER 31, 2023 | \$ | 1,106,725 |

(1) Non-cash capitalized costs relate to capitalized stock-based compensation, decommissioning obligation assets and leased asset modifications.

(2) Depletion and depreciation for the year ended December 31, 2023 includes \$0.9 million of depreciation relating to the Leased Asset (year ended December 31, 2022 - \$2.1 million).

PP&E consists of the following:

| Net book value (As at) | December 31, 2023 | December 31, 2022 |
|---|----------------------|----------------------|
| PP&E at cost ⁽¹⁾ | \$ 2,731,262 | \$ 3,287,933 |
| Accumulated depletion and depreciation ⁽¹⁾ | (725,017) | (921,529) |
| Accumulated impairment losses | (899,520) | (957,513) |
| TOTAL PP&E | \$ 1,106,725 | \$ 1,408,891 |

(1) As at December 31, 2023, the PP&E cost includes \$13.3 million of Leased Asset cost and accumulated depletion and depreciation includes \$9.2 million of accumulated depreciation relating to the Leased Asset (as at December 31, 2022 - Leased Asset cost of \$12.6 million and accumulated depreciation relating to the Leased Asset of \$8.3 million).

As at December 31, 2023, \$83.2 million (December 31, 2022 - \$131.5 million) of PP&E was not subject to depletion or depreciation as the underlying oil and gas assets were not ready for use in the manner intended by management.

8. EXPLORATION AND EVALUATION ASSET ("E&E")

| | | |
|---|----|-------|
| BALANCE, DECEMBER 31, 2021 | \$ | 561 |
| E&E capital expenditures | | 457 |
| Non-cash capitalized costs ⁽¹⁾ | | 143 |
| BALANCE, DECEMBER 31, 2022 | \$ | 1,161 |
| E&E capital expenditures | | 719 |
| Non-cash capitalized costs ⁽¹⁾ | | 238 |
| BALANCE, DECEMBER 31, 2023 | \$ | 2,118 |

(1) Non-cash capitalized costs relate to capitalized stock-based compensation and decommissioning obligation assets.

9. IMPAIRMENT

At each financial reporting date, the Company considers potential indicators of impairment or reversal of previous impairments for both its Thermal Oil and Light Oil CGUs. The Thermal Oil Division consists of the Leismer/Corner, Hangingstone and Dover West CGUs. The Light Oil Division consists of the Greater Kaybob area and prior to September 14, 2023 also included the Greater Placid area (the "Light Oil CGU"). This assessment includes an analysis of current market and regulatory conditions as well as a review of the Company's assets, future development plans and pending land expiries. At December 31, 2023, no indicators of impairment or impairment reversal were identified.

Impairment Reversal - December 31, 2022

In the fourth quarter of 2022, Athabasca identified indicators of impairment and impairment reversal within the Light Oil CGU and Hangingstone CGU which included the increase in forecasted commodity prices, increasing interest rates and changes to the regulatory environment. As a result, the Company completed an impairment test on its Light Oil CGU which resulted in an estimated recoverable value of \$553.3 million based on FVLCTS, which was above the CGU's carrying value of \$473.3 million, resulting in an

impairment reversal of \$80.0 million at December 31, 2022. The Hangingstone CGU impairment test resulted in supporting the CGU's carrying value of \$308.2 million. No indicators of impairment or impairment reversal were identified in the Company's remaining CGUs.

10. RISK MANAGEMENT CONTRACTS

Under the Company's commodity risk management program, Athabasca may utilize financial and/or physical delivery contracts to fix the commodity price associated with a portion of its future production in order to manage its exposure to fluctuations in commodity prices.

Financial commodity risk management contracts are valued on the consolidated balance sheet by multiplying the contractual volumes by the differential between the anticipated market price (i.e. forecasted strip price) and the contractual fixed price at each future settlement date. The corresponding change in the asset or liability is recognized as an unrealized gain or loss in net income (loss). As the commodity derivatives are unwound (i.e. settled in cash), Athabasca recognizes a corresponding realized gain or loss in net income (loss). Physical delivery contracts are not considered financial instruments and therefore, no asset or liability is recognized on the consolidated balance sheet.

Financial commodity risk management contracts

As at December 31, 2023, the following financial commodity risk management contracts were in place:

| Instrument | Period | Volume | C\$ Average Price ⁽¹⁾ | US\$ Average Price ⁽¹⁾ |
|---------------------------|-------------------------|-------------|----------------------------------|-----------------------------------|
| <i>Sales contracts</i> | | | <i>C\$/bbl</i> | <i>US\$/bbl</i> |
| WTI collar | January - March 2024 | 9,040 bbl/d | \$ 66.13 - 166.54 | \$ 50.00 - 125.92 |
| <i>Purchase contracts</i> | | | <i>C\$/GJ/bbl</i> | <i>US\$/GJ/bbl</i> |
| AECO collar | January - December 2024 | 20,000 GJ/d | \$ 2.35 - 2.84 | \$ 1.78 - 2.15 |

(1) The implied C\$ or US\$ Average Price per bbl or GJ, as applicable, was calculated using the December 31, 2023 exchange rate of US\$1.00 = C\$1.3226.

Athabasca's commodity risk management contracts are held with three counterparties, all of which are large reputable financial institutions. The Company concluded that credit risk associated with commodity risk management contracts is low. Commodity risk management contracts have been classified as Level 2 on the fair value hierarchy.

In 2021, Athabasca entered into a seven-year marketing agreement for 15,000 bbl/d with an industry counterparty that diversifies the Company's sales to the US Gulf Coast through the Keystone pipeline system. The marketing agreement has a pricing derivative that provides exposure to WCS Gulf Coast pricing. As at December 31, 2023, the pricing derivative had an asset value of \$2.0 million (December 31, 2022 - \$0.8 million).

Financial commodity risk management contracts assets and liabilities are offset and the net amount presented on the consolidated balance sheet when the Company has a legal right to offset the amounts and intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously. The following table summarizes the gross asset and liability positions of the Company's individual risk management contracts that are offset on the consolidated balance sheet:

| As at | December 31, 2023 | | | December 31, 2022 | | |
|----------------------------------|-------------------|------------|------------|-------------------|------------|------------|
| | Asset | Liability | Net | Asset | Liability | Net |
| RISK MANAGEMENT CONTRACTS, GROSS | \$ 1,999 | \$ (3,242) | \$ (1,243) | \$ 1,625 | \$ (9,258) | \$ (7,633) |
| Individual counterparty offsets | — | — | — | (826) | 826 | — |
| RISK MANAGEMENT CONTRACTS, NET | \$ 1,999 | \$ (3,242) | \$ (1,243) | \$ 799 | \$ (8,432) | \$ (7,633) |

At December 31, 2023, a US\$5 increase/decrease in the price of WTI has a nil impact on the WTI collar contracts. The following table summarizes the sensitivity to price changes for Athabasca's other commodity risk management contracts:

| As at December 31, 2023 | Change in AECO | |
|--|------------------------|------------------------|
| | Increase of C\$1.00/GJ | Decrease of C\$1.00/GJ |
| Increase (decrease) to fair value of commodity risk management contracts | \$ 1,739 | \$ (7,208) |

Additional financial commodity risk management has taken place subsequent to December 31, 2023 as noted in the table below:

| Instrument | Period | Volume | C\$ Average Price ⁽¹⁾ | US\$ Average Price ⁽¹⁾ |
|------------------------|----------------------|--------------|----------------------------------|-----------------------------------|
| <i>Sales contracts</i> | | | <i>C\$/bbl</i> | <i>US\$/bbl</i> |
| WTI collar | January - March 2024 | 13,120 bbl/d | \$ 66.13 - 122.23 | \$ 50.00 - 92.42 |
| WTI collar | April - June 2024 | 9,725 bbl/d | \$ 66.13 - 127.29 | \$ 50.00 - 96.24 |

(1) The implied C\$ or US\$ Average Price per bbl or GJ, as applicable, was calculated using the December 31, 2023 exchange rate of US\$1.00 = C\$1.3226.

11. INDEBTEDNESS

Senior Secured Second Lien Notes

On October 22, 2021, Athabasca issued US\$350.0 million of Senior Secured Second Lien Notes (the "2026 Notes"). The 2026 Notes, which were issued along with warrants (see Note 12), bear interest at 9.75% per annum, payable semi-annually, and have a term of 5 years maturing on November 1, 2026. As at December 31, 2023, the principal balance on the 2026 Notes was \$207.6 million (US\$157 million).

| As at | December 31, 2023 | December 31, 2022 |
|--|-------------------|-------------------|
| Senior Secured Second Lien Notes ("2026 Notes") ⁽¹⁾ | \$ 207,648 | \$ 237,231 |
| Discount on debt | (62,798) | (62,798) |
| Accretion of discount on debt | 34,855 | 31,700 |
| TOTAL TERM DEBT | \$ 179,705 | \$ 206,133 |
| Presented as: | | |
| Current term debt | \$ — | \$ 58,302 |
| Long term debt | \$ 179,705 | \$ 147,831 |

(1) As at December 31, 2023, the 2026 Notes were translated into Canadian dollars at the period end exchange rate of US\$1.00 = C\$1.3226 (As at December 31, 2022 - US\$1.00 = C\$1.3544).

The 2026 Notes are not subject to any maintenance or financial covenants and are secured by a second priority lien on substantially all of the assets of the Company. Subject to certain exceptions and qualifications, the 2026 Notes contain certain covenants that limit the Company's ability to, among other things, incur additional indebtedness, create or permit liens to exist, and make certain restricted payments, dispositions and transfers of assets. In addition, the Company is subject to certain minimum hedging requirements that are consistent with the Company's risk management policy. As at December 31, 2023, the Company is in compliance with all covenants.

Athabasca may redeem all or part of the 2026 Notes at any time prior to November 1, 2024 at 100% of the principal amount plus an applicable premium, as set out in the 2026 Notes indenture. On or after November 1, 2024, Athabasca may redeem all or part of the 2026 Notes at 104.875% from November 1, 2024 to November 1, 2025 and at 100% from November 1, 2025 to November 1, 2026. During the first quarter of 2023 the Excess Cash Flow ("ECF") feature was terminated within the indenture as the principal balance was below US\$175 million.

As at December 31, 2023, the fair value of the 2026 Notes was \$219.8 million (US\$166.2 million) based on observable market quoted prices (Level 1).

Senior Extendible Revolving Term Credit Facility

Athabasca has a \$110.0 million reserve-based credit facility (the "Credit Facility"). The Credit Facility is a committed facility available on a revolving basis until May 31, 2024, at which point in time it may be extended at the lenders' option. If the revolving period is not extended, the undrawn portion of the facility will be cancelled and any amounts outstanding would be repayable at the end of the non-revolving term, being May 31, 2025. The Credit Facility is subject to a semi-annual borrowing base review, occurring by May 31 and November 30 of each year. In the fourth quarter of 2023, the semi-annual borrowing base review was completed and the borrowing base was confirmed at \$110.0 million. The borrowing base is determined based on the lenders' evaluation of the Company's petroleum and natural gas reserves and their commodity price outlook at the time of each renewal.

The Credit Facility is secured by a first priority security interest on all present and after acquired property of the Company and is senior in priority to the 2026 Notes. The Credit Facility contains certain covenants that limit the Company's ability to, among other

things, incur additional indebtedness, create or permit liens to exist, make certain restricted payments, and dispose of or transfer assets. As at December 31, 2023, the Company is in compliance with all covenants.

As at December 31, 2023, amounts borrowed under the Credit Facility bear interest at a floating rate based on the applicable Canadian prime rate, US base rate, secured overnight financing rate or bankers' acceptance rate, plus a margin of 2.00% to 3.00%. The Company incurs an issuance and fronting fee for letters of credit of 3.25% and a standby fee on the undrawn portion of the Credit Facility of 0.75%.

As at December 31, 2023, the Company had no amounts drawn and \$27.1 million of letters of credit outstanding under the Credit Facility. As at December 31, 2022, the Company had no amounts drawn and \$34.4 million of letters of credit outstanding under the Credit Facility.

Unsecured Letter of Credit Facility

Athabasca maintains a \$60.0 million unsecured letter of credit facility (the "Unsecured Letter of Credit Facility") with a Canadian bank that is supported by a performance security guarantee from Export Development Canada (December 31, 2022 - \$60 million). The facility is available on a demand basis and letters of credit issued under this facility incur an issuance and performance guarantee fee of 3.0%. As at December 31, 2023, the Company had \$57.5 million of letters of credit outstanding under the Unsecured Letter of Credit Facility (December 31, 2022 - \$47.8 million).

12. WARRANT LIABILITY

In conjunction with the issuance of the 2026 Notes, Athabasca issued 350,000 warrants at an exercise price of \$0.9441 per share that expire on November 1, 2026. Each warrant is exercisable into 227 common shares.

The warrants are classified as a financial liability due to a cashless exercise provision. They are measured at fair value upon issuance and at each subsequent reporting period, and presented net of a deferred loss, with the changes in fair value and amortization of the deferred loss recorded in the consolidated statement of income (loss). The fair value of the warrants is determined using the Black-Scholes option valuation model. The warrants can be exercised at any time and are therefore presented as a current liability on the consolidated balance sheet. The following table reconciles the warrant liability:

| | Year ended December 31, 2023 | | Year ended December 31, 2022 | |
|-------------------------------|---------------------------------|------------------|---------------------------------|------------------|
| | Number of Warrants | Amount | Number of Warrants | Amount |
| Balance, beginning of period | 139,217 | \$ 53,813 | 350,000 | \$ 46,406 |
| Change in fair value | — | 25,801 | — | 68,930 |
| Amortization of deferred loss | — | 1,013 | — | 2,605 |
| Exercise of warrants | (109,893) | (58,508) | (210,783) | (64,128) |
| BALANCE, END OF PERIOD | 29,324 | \$ 22,119 | 139,217 | \$ 53,813 |

The fair value as at December 31, 2023 of each common share issuable under the warrant agreement was estimated at \$3.35 using a risk-free interest rate of 3.7%, an expected life of 2.8 years, expected volatility of 57.4% and a stock price of \$4.17 per share. The fair value as at December 31, 2022 of each common share issuable under the warrant agreement was estimated at \$1.74 using a risk-free interest rate of 3.6%, an expected life of 3.8 years, expected volatility of 61.9% and a stock price of \$2.41 per share. The change in fair value as at December 31, 2023 of \$25.8 million (December 31, 2022 - \$68.9 million) was expensed within gain (loss) on revaluation of provisions and other in the Consolidated Statements of Income (Loss). As at December 31, 2023, 92% of the original 350,000 warrants have been exercised.

13. PROVISIONS AND OTHER LIABILITIES

| As at | December 31, 2023 | December 31, 2022 |
|---|----------------------|----------------------|
| Decommissioning obligations | \$ 93,842 | \$ 93,132 |
| TOTAL PROVISIONS | 93,842 | 93,132 |
| Lease liability | 5,832 | 7,693 |
| Cash settled stock-based compensation liability (Note 15) | 30,740 | 24,567 |
| TOTAL PROVISIONS AND OTHER LIABILITIES | \$ 130,414 | \$ 125,392 |
| Presented as: | | |
| Current portion of provisions and other liabilities | \$ 30,064 | \$ 27,835 |
| Provisions and other liabilities | \$ 100,350 | \$ 97,557 |

Decommissioning obligations

The total future costs to reclaim the Company's oil and gas assets are estimated by management based on Athabasca's ownership interest in wells and facilities, estimated costs to abandon and reclaim the wells and facilities and the estimated timing of the costs to be incurred in future periods. The following table reconciles the change in decommissioning obligations:

| | December 31, 2023 | December 31, 2022 |
|---|----------------------|----------------------|
| DECOMMISSIONING OBLIGATIONS, BEGINNING OF PERIOD | \$ 93,132 | \$ 111,419 |
| Liabilities incurred | 1,088 | 976 |
| Liabilities settled | (1,762) | (1,356) |
| Liabilities settled - funded by Site Rehabilitation Program | — | (1,742) |
| Liabilities disposed (Note 6) | (6,078) | — |
| Change in discount rate | — | 15,755 |
| Change in estimates | (318) | (42,439) |
| Accretion expense | 7,780 | 10,519 |
| DECOMMISSIONING OBLIGATIONS, END OF PERIOD | \$ 93,842 | \$ 93,132 |

At December 31, 2023, the Company has calculated the net present value of its decommissioning obligations using an inflation rate of 2.0% (December 31, 2022 - 2.0%) and a credit-adjusted discount rate of 8.5% per annum (December 31, 2022 - 8.5%). The payments to settle these obligations are expected to occur during a period of up to 50 years due to the long-term nature of the Company's oil and gas assets. The undiscounted amount of estimated inflated future cash flows required to settle the obligations is \$379.8 million (December 31, 2022 - \$409.7 million). A 1.0% change in the credit-adjusted discount rate would impact the discounted value of the decommissioning obligations by approximately \$11 million with a corresponding adjustment to PP&E, E&E or net income (loss) if the adjustment is related to fully impaired assets. As at December 31, 2023, \$1.7 million was included within the current portion of provisions (December 31, 2022 - \$1.7 million).

Lease liability

Athabasca recognizes a lease liability related to its head office lease. The liability is measured at the present value of the remaining lease payments discounted at a rate of 8.5% (December 31, 2022 - 10%). The following table reconciles the change in the lease liability:

| | December 31, 2023 | December 31, 2022 |
|--------------------------------------|----------------------|----------------------|
| LEASE LIABILITY, BEGINNING OF PERIOD | \$ 7,693 | \$ 10,856 |
| Interest expense | 588 | 909 |
| Liability settled ⁽¹⁾ | (3,208) | (4,072) |
| Modifications | 759 | — |
| LEASE LIABILITY, END OF PERIOD | \$ 5,832 | \$ 7,693 |

(1) In the consolidated statements of cash flows, the liability settled is reported as \$2.6 million of financing activities and \$0.6 million of operating activities for the year ended December 31, 2023 (year ended December 31, 2022 - \$3.2 million of financing activities and \$0.9 million of operating activities).

The following table summarizes Athabasca's estimated future minimum payments associated with the lease liability as at December 31, 2023:

| As at | December 31, 2023 |
|---|----------------------|
| Within one year | \$ 2,343 |
| Later than one year but not later than five years | 2,919 |
| After five years | 2,289 |
| Minimum lease payments | 7,551 |
| Amounts representing finance charges | (1,719) |
| Present value of net minimum lease payments | \$ 5,832 |

Property taxes associated with the head office lease are considered a variable lease component which have not been included in the measurement of the lease liability and are expensed as incurred. For the year ended December 31, 2023, Athabasca incurred \$0.5 million of variable lease expense which has been included within general and administrative expenses in the consolidated statements of income (loss) (year ended December 31, 2022 - \$0.5 million). Lease operating costs are a non-lease component of the head office lease and have therefore been excluded from the measurement of the lease liability and are expensed as incurred.

Short-term leases and low value leases have not been included in the measurement of the lease liability. For the year ended December 31, 2023, Athabasca incurred \$11.7 million of expenditures related to short-term and low value leases which have been recognized as incurred (year ended December 31, 2022 - \$7.4 million).

14. SHAREHOLDERS' EQUITY

The Company's authorized share capital consists of an unlimited number of common shares and an unlimited number of first and second preferred shares. There are no first or second preferred shares outstanding at the reporting date and none of the Company's share capital has a par value. The following table summarizes changes to the Company's common share capital:

| | Year ended December 31, 2023 | | Year ended December 31, 2022 | |
|--|---------------------------------|---------------------|---------------------------------|---------------------|
| | Number of Shares | Amount | Number of Shares | Amount |
| Balance, beginning of period | 586,489,001 | \$ 2,352,894 | 530,844,591 | \$ 2,242,047 |
| Exercise of warrants (Note 12) | 21,465,483 | 70,439 | 44,202,302 | 100,561 |
| Exercise of stock options, RSUs and PSUs (Note 15) | 8,611,020 | 8,682 | 11,442,108 | 10,286 |
| Repurchased shares for cancellation | (44,213,300) | (158,582) | — | — |
| BALANCE, END OF PERIOD | 572,352,204 | \$ 2,273,433 | 586,489,001 | \$ 2,352,894 |

Subsequent to December 31, 2023, the Company repurchased for cancellation 5.4 million common shares under its Normal Course Issuer Bid ("NCIB") program, for total consideration of \$23.7 million.

15. STOCK-BASED COMPENSATION

In May 2021, Athabasca adopted an omnibus incentive plan (the “Omnibus Incentive Plan”). The Omnibus Incentive Plan is a long-term incentive plan that permits the grant of options, RSUs and PSUs and other security-based rewards to eligible individuals. In respect of future rewards, the Omnibus Incentive Plan replaces the Performance Plan, the 2015 RSU Plan and the Option Plan (collectively the “Prior Plans”). The Company also has PUPs and DSUs stock-based compensation plans. The following table summarizes the Company's outstanding stock-based compensation units:

| As at | December 31, 2023 | December 31, 2022 |
|---|----------------------|----------------------|
| Stock options | 3,613,600 | 7,159,800 |
| RSUs | 9,272,304 | 14,181,514 |
| PSUs | — | 6,483,300 |
| Equity based | 12,885,904 | 27,824,614 |
| PSUs | 2,625,700 | — |
| PUPs | 1,454,994 | 5,522,391 |
| DSUs | 5,036,925 | 5,911,434 |
| Cash based | 9,117,619 | 11,433,825 |
| TOTAL OUTSTANDING STOCK-BASED COMPENSATION UNITS | 22,003,523 | 39,258,439 |

The stock options, RSUs and PSUs are rolling plans and the number of common shares that may be issued on exercise under the plans is limited to an aggregate of 10% of the common shares outstanding. The stock options and RSUs plans have been accounted for as equity-settled stock-based compensation plans. In the first quarter of 2023, the Company elected for the 2020 PSUs vesting April 1, 2023 to be settled in cash to reduce share dilution in advance of its proposed share buyback program which commenced in the second quarter of 2023. The PSUs plan was historically accounted for as an equity-settled stock-based compensation plan and has now been accounted for with the PUPs and DSUs as cash-settled stock-based compensation plans and are recognized as liabilities on the Consolidated Balance Sheet. The liabilities under the cash settled plans are revalued at each reporting date based on the Company's closing share price.

The following table summarizes the Company's stock-based compensation expense (recovery):

| | Year ended December 31, | |
|--|----------------------------|------------------|
| | 2023 | 2022 |
| Stock-based compensation expense (recovery) - equity based | \$ 5,776 | \$ 8,342 |
| Capitalized to PP&E and E&E assets | (2,219) | (1,904) |
| Net stock-based compensation expense (recovery) - equity based | 3,557 | 6,438 |
| Stock-based compensation expense (recovery) - cash based | 52,314 | 23,960 |
| Capitalized to PP&E and E&E assets | (1,646) | (3,046) |
| Net stock-based compensation expense (recovery) - cash based | 50,668 | 20,914 |
| NET STOCK-BASED COMPENSATION EXPENSE (RECOVERY) | \$ 54,225 | \$ 27,352 |

The following table reconciles the Company's cash settled stock-based compensation liability:

| | December 31, 2023 | December 31, 2022 |
|---|----------------------|----------------------|
| CASH SETTLED STOCK-BASED COMPENSATION LIABILITY, BEGINNING OF PERIOD | \$ 24,567 | \$ 16,327 |
| Stock-based compensation expense (recovery) - cash based | 52,314 | 23,960 |
| Liabilities settled | (46,141) | (15,720) |
| CASH SETTLED STOCK-BASED COMPENSATION LIABILITY, END OF PERIOD | \$ 30,740 | \$ 24,567 |

Stock Options

Stock options issued by the Company permit the holder to purchase one common share of the Company at the stated exercise price or to receive a cash payment equal to the appreciated value of the stock option, at the sole discretion of the Company. Currently, options generally vest within three years and have a life of five to seven years.

| | December 31, 2023 | | December 31, 2022 | |
|---|-------------------|-------------------------------|-------------------|-------------------------------|
| | Number of options | Exercise price ⁽¹⁾ | Number of options | Exercise price ⁽¹⁾ |
| Outstanding stock options, beginning of period | 7,159,800 | \$ 1.56 | 6,470,033 | \$ 1.46 |
| Granted | — | — | 2,659,800 | 1.93 |
| Expired | — | — | (18,100) | 2.07 |
| Exercised | (3,546,200) | 1.47 | (1,951,933) | 1.72 |
| OUTSTANDING STOCK OPTIONS, END OF PERIOD | 3,613,600 | \$ 1.64 | 7,159,800 | \$ 1.56 |
| EXERCISABLE STOCK OPTIONS, END OF PERIOD | 953,800 | \$ 0.84 | 4,491,834 | \$ 1.34 |

(1) Exercise price determined by weighted average.

The company granted no stock options in 2023. The estimated fair value per stock option granted during the year ended December 31, 2022 was \$0.94, using a risk-free interest rate of 1.60%, an expected life of 5 years, expected volatility of 55.5% and a stock price of \$1.93 per share. The exercise prices of the Company's outstanding stock options as at December 31, 2023 range from \$0.41 - \$1.93 as follows:

| Range of exercise prices (\$) | Options outstanding | | | Options exercisable | |
|-------------------------------|---------------------|-------------------------------|--------------------------------|---------------------|-------------------------------|
| | Number of options | Exercise price ⁽¹⁾ | Years to Expiry ⁽¹⁾ | Number of options | Exercise price ⁽¹⁾ |
| 0.41 - 0.63 | 24,500 | \$ 0.41 | 3.09 | 24,500 | \$ 0.41 |
| 0.64 - 0.96 | 929,300 | 0.85 | 2.25 | 929,300 | 0.85 |
| 1.73 - 1.93 | 2,659,800 | 1.93 | 5.17 | — | — |
| | 3,613,600 | \$ 1.64 | 4.40 | 953,800 | \$ 0.84 |

(1) Exercise price and years to expiry determined by weighted average.

Restricted Share Units

RSUs granted under the 2015 RSU Plan and the Omnibus Incentive Plan generally vest evenly over three years, have no exercise price and automatically settle at each vesting date in either cash, shares issued from treasury or through the purchase of shares on the open market, at the Company's discretion.

| | December 31, 2023 | December 31, 2022 |
|--|-------------------|-------------------|
| Outstanding RSUs, beginning of period | 14,181,514 | 17,528,229 |
| Granted | 2,438,600 | 4,561,200 |
| Forfeited | (261,591) | (129,810) |
| Settled | (7,086,219) | (7,778,105) |
| OUTSTANDING RSUs, END OF PERIOD | 9,272,304 | 14,181,514 |

The average fair value of RSUs granted during the year ended December 31, 2023 was \$3.27 (year ended December 31, 2022 - \$1.87).

Performance Share Units

PSUs granted under the Performance Plan and the Omnibus Incentive Plan cliff vest over approximately three years and vested awards are settled in cash, shares issued from treasury or through the purchase of shares on the open market, at the Company's discretion. The settlement value is based on a multiplier, which ranges from 0% to 200%, based on the Company's total shareholder return relative to a performance peer group and corporate scorecard performance over the vesting period. In the first quarter of 2023, the Company elected for the 2020 PSUs vesting April 1, 2023 to be settled in cash. The PSUs plan was historically accounted for as an equity-settled stock-based compensation plan and has now been accounted as a cash-settled stock-based compensation plan and is recognized as a liability on the Consolidated Balance Sheet. As at December 31, 2023, Athabasca recognized a liability for this plan within the provisions and other liabilities of \$4.3 million (December 31, 2022 - \$nil) (Note 13).

| | December 31, 2023 | December 31, 2022 |
|--|----------------------|----------------------|
| Outstanding PSUs, beginning of period | 6,483,300 | 6,450,700 |
| Granted | 968,600 | 1,744,670 |
| Performance adjustment ⁽¹⁾ | 2,958,764 | — |
| Forfeited | (54,000) | — |
| Settled | (7,730,964) | (1,712,070) |
| OUTSTANDING PSUs, END OF PERIOD | 2,625,700 | 6,483,300 |

(1) Relates to PSUs granted in 2020 and settled in 2023.

Phantom Share Units

The units granted under this plan vest evenly over three years, have no exercise price and automatically settle in cash on each vesting date at an amount equivalent to the share price at that date. Accordingly, the "Phantom Share Unit" plan is a cash-settled stock-based compensation plan. As at December 31, 2023, Athabasca recognized a liability for this plan within provisions and other liabilities of \$5.4 million (December 31, 2022 - \$10.4 million) with the entire balance disclosed as a current liability (December 31, 2022 - \$8.4 million) (Note 13). After the vesting on April 1, 2024 there will be no further PUPs outstanding.

| | December 31, 2023 | December 31, 2022 |
|--|----------------------|----------------------|
| Outstanding PUPs, beginning of period | 5,522,391 | 10,116,522 |
| Forfeited | (134,279) | (493,720) |
| Settled | (3,933,118) | (4,100,411) |
| OUTSTANDING PUPs, END OF PERIOD | 1,454,994 | 5,522,391 |

Deferred Share Units

The Company has a DSUs plan for Athabasca's non-management directors. DSUs vest immediately on the date of grant, have no exercise price and are settled in cash when an individual ceases to be a director of the Company. The DSUs are expensed immediately upon grant and the resulting liability is revalued at each reporting date based on the closing share price. As at December 31, 2023, Athabasca recognized a DSUs liability within the current portion of provisions and other liabilities of \$21.0 million (December 31, 2022 - \$14.2 million) (Note 13).

| | December 31, 2023 | December 31, 2022 |
|--|----------------------|----------------------|
| Outstanding DSUs, beginning of period | 5,911,434 | 8,135,796 |
| Granted | 338,618 | 454,241 |
| Settled | (1,213,127) | (2,678,603) |
| OUTSTANDING DSUs, END OF PERIOD | 5,036,925 | 5,911,434 |

16. PER SHARE AMOUNTS

Dilutive securities will have a dilutive effect on the weighted average shares outstanding when the average market price of the common shares during the period exceeds the sum of the exercise price of the securities and the unamortized stock-based compensation expense. The following table calculates the basic and diluted net income (loss) per share:

| | Year ended December 31, | |
|---|----------------------------|-------------|
| | 2023 | 2022 |
| BASIC & DILUTED NET INCOME (LOSS) AND COMPREHENSIVE INCOME (LOSS) | \$ (51,220) | \$ 572,271 |
| WEIGHTED AVERAGE SHARES OUTSTANDING - BASIC | 583,757,575 | 568,035,589 |
| Dilutive effect of stock options, RSUs, PSUs and warrants | — | 18,877,739 |
| WEIGHTED AVERAGE SHARES OUTSTANDING - DILUTED | 583,757,575 | 586,913,328 |
| BASIC NET INCOME (LOSS) PER SHARE | \$ (0.09) | \$ 1.01 |
| DILUTED NET INCOME (LOSS) PER SHARE | \$ (0.09) | \$ 0.98 |

For the year ended December 31, 2023, securities of 22,168,152 were excluded from the diluted net income (loss) per share calculation as their effect is anti-dilutive (year ended December 31, 2022 – 34,509,059).

17. SEGMENTED INFORMATION

Segmented operating results

| Year ended December 31, | Thermal Oil | | Light Oil | | Eliminations ⁽¹⁾ | | Consolidated | |
|---|--------------|--------------|--------------|------------|-----------------------------|-------------|--------------|--------------|
| | 2023 | 2022 | 2023 | 2022 | 2023 | 2022 | 2023 | 2022 |
| SEGMENT REVENUES | | | | | | | | |
| Petroleum, natural gas & midstream sales | \$ 1,204,245 | \$ 1,382,627 | \$ 91,062 | \$ 175,279 | \$ (26,782) | \$ (53,221) | \$ 1,268,525 | \$ 1,504,685 |

| | 853,442 | 909,188 | 243,401 | 1,229 | (26,782) | (53,221) | 1,070,061 | 857,196 |
| Gain (loss) on commodity risk management contracts, net | | | | | | | (29,545) | (124,339) |
| Segment income (loss) | \$ 289,938 | \$ 340,305 | \$ (164,922) | \$ 148,442 | \$ — | \$ — | 95,471 | 364,408 |
| CORPORATE | | | | | | | | |
| Interest income | | | | | | | 11,594 | 3,224 |
| Financing and interest | | | | | | | (39,184) | (92,111) |
| General and administrative | | | | | | | (20,646) | (20,768) |
| Stock-based compensation | | | | | | | (54,225) | (27,352) |
| Depreciation | | | | | | | (1,815) | (2,938) |
| Foreign exchange gain (loss), net | | | | | | | (2,434) | (4,891) |
| Gain (loss) on revaluation of provisions and other | | | | | | | (25,895) | (60,589) |
| Deferred income tax recovery (expense) | | | | | | | (14,086) | 413,288 |
| NET INCOME (LOSS) AND COMPREHENSIVE INCOME (LOSS) | | | | | | | \$ (51,220) | \$ 572,271 |

(1) Eliminations include adjustments for NGL's (i.e. condensate) produced by the Light Oil segment used for internal consumption (i.e. diluent) by the Thermal Oil segment. Sales between segments are made at prices that approximate market prices.

Seasonality can have an impact on Operating Income (Loss) generated by the Thermal Oil business. In the first and fourth quarters of a given year, dilution costs will generally increase as more diluent is required to meet pipeline specifications.

Segmented capital expenditures

| | Year ended December 31, | |
|---|----------------------------|-------------------|
| | 2023 | 2022 |
| THERMAL OIL | | |
| Property, plant and equipment | \$ 112,358 | \$ 110,125 |
| Exploration and evaluation | 719 | 457 |
| | 113,077 | 110,582 |
| LIGHT OIL | | |
| Property, plant and equipment | 20,857 | 11,662 |
| CORPORATE | | |
| Corporate assets ⁽¹⁾ | 5,898 | 25,205 |
| TOTAL CAPITAL EXPENDITURES⁽¹⁾⁽²⁾⁽³⁾ | \$ 139,832 | \$ 147,449 |

(1) For the year ended December 31, 2023, expenditures include cash capitalized stock-based compensation costs of \$1.6 million (year ended December 31, 2022 - \$3.0 million).

(2) For the year ended December 31, 2023, expenditures include cash capitalized staff costs of \$7.6 million (year ended December 31, 2022 - \$7.2 million).

(3) Excludes non-cash capitalized costs related to stock-based compensation, decommissioning obligation assets and leased asset modifications.

Segmented assets

| Net book value (As at) | December 31, 2023 | December 31, 2022 |
|-------------------------------|----------------------|----------------------|
| THERMAL OIL | | |
| Prepaid expense (Note 4) | \$ 37,907 | \$ 40,137 |
| Inventory (Note 5) | 42,488 | 56,900 |
| Property, plant and equipment | 866,398 | 827,934 |
| Exploration and evaluation | 2,118 | 1,161 |
| | 948,911 | 926,132 |
| LIGHT OIL | | |
| Property, plant and equipment | 211,618 | 553,336 |
| CORPORATE | | |
| Current assets ⁽¹⁾ | 455,853 | 297,400 |
| Long-term deposit (Note 21) | — | 12,577 |
| Deferred income tax (Note 21) | 403,544 | 413,288 |
| Property, plant and equipment | 28,709 | 27,621 |
| | 888,106 | 750,886 |
| TOTAL ASSETS | \$ 2,048,635 | \$ 2,230,354 |

(1) Current assets under Corporate exclude inventory and the current portion of the Hangingstone transportation prepayment which have been included under the Thermal Oil segment.

18. REVENUE

The following table summarizes Athabasca's revenue by product:

| | Year ended December 31, | |
|------------------------------------|----------------------------|---------------------|
| | 2023 | 2022 |
| Heavy oil (blended bitumen) | \$ 1,192,680 | \$ 1,372,403 |
| Oil and condensate | 69,375 | 122,949 |
| Natural gas | 12,275 | 33,789 |
| Other natural gas liquids | 9,412 | 18,541 |
| Eliminations - inter-segment sales | (26,782) | (53,221) |
| Petroleum and natural gas sales | 1,256,960 | 1,494,461 |
| Midstream sales | 11,565 | 10,224 |
| TOTAL REVENUE | \$ 1,268,525 | \$ 1,504,685 |

19. FINANCING AND INTEREST

| | Year ended December 31, | |
|--|----------------------------|------------------|
| | 2023 | 2022 |
| Financing and interest expense on indebtedness (Note 11) | \$ 26,648 | \$ 49,744 |
| Accretion of 2026 Notes (Note 11) | 3,155 | 28,334 |
| Accretion of warrants (Note 12) | 1,013 | 2,605 |
| Accretion of provisions (Note 13) | 7,780 | 10,519 |
| Interest expense on lease liability (Note 13) | 588 | 909 |
| TOTAL FINANCING AND INTEREST | \$ 39,184 | \$ 92,111 |

20. GAIN (LOSS) ON REVALUATION OF PROVISIONS AND OTHER

| | Year ended December 31, | |
|--|----------------------------|--------------------|
| | 2023 | 2022 |
| Change in fair value of warrant liability (Note 12) | \$ (25,801) | \$ (68,930) |
| Change in estimated decommissioning obligations related to fully impaired E&E assets | (94) | 6,599 |
| Other | — | 1,742 |
| TOTAL GAIN (LOSS) ON REVALUATION OF PROVISIONS AND OTHER | \$ (25,895) | \$ (60,589) |

21. INCOME TAXES

The following table reconciles the expected income tax (recovery) expense calculated at the Canadian statutory rate of 23.0% (2022 – 23.0%) to the actual income tax (recovery) expense:

| | Year ended December 31, | |
|---|----------------------------|---------------------|
| | 2023 | 2022 |
| INCOME (LOSS) BEFORE INCOME TAXES | \$ (37,134) | \$ 158,983 |
| Effective Canadian statutory income tax rate | 23% | 23% |
| Expected income tax (recovery) expense | (8,540) | 36,566 |
| ADJUSTMENTS RELATED TO THE FOLLOWING: | | |
| Non-taxable portion on foreign exchange (gains) losses, net | (542) | 1,299 |
| Stock-based compensation | (4,420) | (136) |
| Warrants | 6,167 | 16,453 |
| Recognition of outside basis difference on partnership | 20,506 | — |
| Other | 915 | 1,112 |
| Unrecognized deferred income tax asset | — | (468,582) |
| DEFERRED INCOME TAX (RECOVERY) EXPENSE | \$ 14,086 | \$ (413,288) |

The following table summarizes the components and the movements of the deferred income tax asset:

| As at | December 31, 2022 | Recognized in Net Income (loss) | Recognized in Equity | December 31, 2023 |
|--|----------------------|---------------------------------------|-------------------------|----------------------|
| Deferred tax liabilities | | | | |
| Property, plant and equipment | \$ (76,320) | \$ 4,036 | \$ — | \$ (72,284) |
| Debt issue costs | (2,906) | 2,167 | — | (739) |
| Recognition of outside basis difference on partnership | — | (20,506) | — | (20,506) |
| Valuation allowance | (312) | 312 | — | — |
| Other | 759 | (3,108) | — | (2,349) |
| Deferred tax assets | | | | |
| Stock-based compensation | 5,650 | 3,843 | 4,342 | 13,835 |
| Decommissioning obligations | 21,420 | 164 | — | 21,584 |
| Risk management | 1,756 | (1,470) | — | 286 |
| Unrealized foreign exchange | 2,390 | (821) | — | 1,569 |
| Non-capital losses | 460,851 | 1,297 | — | 462,148 |
| DEFERRED TAX ASSET (LIABILITY) | \$ 413,288 | \$ (14,086) | \$ 4,342 | \$ 403,544 |

From time to time, Athabasca undergoes income tax audits in the normal course of business. In 2018, the Company received a notice of reassessment from the Canada Revenue Agency ("CRA") and Alberta Finance with regards to its 2012 taxation year resulting in a \$12.6 million deposit posted with the CRA. In the second quarter of 2023, Athabasca successfully appealed the reassessment and the \$12.6 million was refunded.

As at December 31, 2023, the Company has approximately \$2.8 billion in tax pools, including approximately \$2.3 billion in non-capital losses and exploration tax pools available for immediate deduction against future income. Athabasca's material non-capital losses have an expiry profile between 2030 and 2041.

22. CAPITAL MANAGEMENT

Athabasca's objectives when managing its capital structure is to ensure the Company has sufficient funding to develop its core operating properties and a resilient balance sheet to manage periods of market volatility. Athabasca's capital structure consists of:

| As at | December 31, 2023 | December 31, 2022 |
|---|----------------------|----------------------|
| Face value of Term Debt (Note 11) | \$ 207,648 | \$ 237,231 |
| Shareholders' equity | 1,583,453 | 1,710,497 |
| Working capital, excluding current portion of Term Debt | (315,522) | (140,441) |
| NET MANAGED CAPITAL | \$ 1,475,579 | \$ 1,807,287 |

Net managed capital is not a standardized measure and may not be comparable with the calculation of similar measures of other companies.

23. FINANCIAL INSTRUMENTS RISK

As at December 31, 2023, the Company's consolidated financial assets and liabilities are comprised of cash and cash equivalents, accounts receivable, deposits, risk management contracts, accounts payable, warrant liability and term debt. The risk management contracts have been classified as Level 2 on the fair value hierarchy and the warrant liability has been classified as Level 3 on the fair value hierarchy.

Credit risk

Credit risk is the risk of financial loss to Athabasca if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from Athabasca's cash balances and accounts receivables as per below:

| As at | December 31, 2023 | December 31, 2022 |
|--|----------------------|----------------------|
| Petroleum and natural gas receivables | \$ 97,290 | \$ 85,432 |
| Joint interest billings | 2,771 | 4,009 |
| Risk management (realized), government and other receivables | 45 | 44 |
| TOTAL ACCOUNTS RECEIVABLE | \$ 100,106 | \$ 89,485 |

Athabasca's cash and cash equivalents are held with two counterparties, which are large reputable financial institutions, and management has therefore concluded that credit risk associated with the investments is low. Management concluded that collection risk of the outstanding accounts receivables is low given the high credit quality of the Company's material counterparties. No material receivables were past due as at December 31, 2023. Athabasca's risk management contracts are held with three counterparties, all of which are large reputable financial institutions, and management has therefore concluded that credit risk associated with these risk management contracts is low.

For the year ended December 31, 2023, the Company had sales to four customers which each ranged from 11% to 31% of total sales. Sales to such customers totaled \$1.0 billion, or 81%, of total 2023 sales. For the year ended December 31, 2022, the Company had sales to four customers which each ranged from 10% to 33% of total sales. Sales to such customers totaled \$1.3 billion, or 84%, of total 2022 sales.

Liquidity risk

The Company's objective in managing liquidity risk is to maintain sufficient available reserves to meet its liquidity requirements at any point in time. The Company expects to achieve this objective through prudent capital spending, an active commodity risk management program (Note 10) and by maintaining sufficient liquidity to manage periods of volatility within its cash, cash equivalents and available credit facilities.

For 2024, it is anticipated that Athabasca's capital and operating activities will be funded through cash flow from operating activities and existing cash and cash equivalents. Beyond 2024, depending on the Company's level of capital spend and the commodity price environment, the Company may require additional funding which could include debt, equity, joint ventures, asset sales or other external financing. The availability of any additional future funding will depend on, among other things, the current commodity price environment, operating performance, the Company's credit rating and its ability to access the equity and debt capital markets.

As at December 31, 2023 all material financial liabilities are current except for the 2026 Notes. In addition, the Company has provisions and other liabilities as disclosed in Note 13. The Company's future unrecognized commitments are disclosed in Note 24.

Foreign exchange risk

Athabasca is exposed to foreign currency risk on the principal and interest components of its US dollar denominated 2026 Notes (Note 11) and US dollar denominated cash, cash equivalents, receivables and payables. As at December 31, 2023, Athabasca's net foreign exchange risk exposure was a US\$109.4 million asset (December 31, 2022 - US\$19.1 million liability), and a 5.0% change in the foreign exchange rate (USD:CAD) would result in a \$7.2 million change in the foreign exchange gain/loss (December 31, 2022 - \$1.3 million).

The following table provides a breakdown of the foreign exchange gain (loss):

| | Year ended December 31, | |
|---|----------------------------|------------|
| | 2023 | 2022 |
| Unrealized foreign exchange gain (loss) | \$ (1,141) | \$ (900) |
| Realized foreign exchange gain (loss) | (1,293) | (3,991) |
| FOREIGN EXCHANGE GAIN (LOSS), NET | \$ (2,434) | \$ (4,891) |

The unrealized foreign exchange gain (loss) primarily relates to the principal and interest components of the Company's US dollar denominated term debt and the US dollar denominated cash.

The Company is also exposed to foreign currency risk on oil sales based on US dollar benchmark prices.

Commodity price risk

Athabasca is exposed to commodity price risk on its petroleum and natural gas sales due to fluctuations in market commodity prices. Athabasca manages this exposure through an active commodity risk management program as well as managing capital programs and production levels to maximize the value of recoverable resources. Refer to Note 10 for further details.

Interest rate risk

The Company's exposure to interest rate fluctuations on interest earned on its floating rate cash and cash equivalents balance at December 31, 2023 of \$343.3 million (December 31, 2022 - \$197.5 million), from a 1.0% change in interest rates, would have an annualized impact of approximately \$3.4 million (year ended December 31, 2022 - \$2.0 million). The 2026 Notes and letters of credit issued are subject to fixed interest rates and are not exposed to changes in interest rates.

24. COMMITMENTS AND CONTINGENCIES

The following table summarizes Athabasca's estimated future unrecognized minimum commitments as at December 31, 2023 for the following five years and thereafter:

| | 2024 | 2025 | 2026 | 2027 | 2028 | Thereafter | Total |
|--|-------------------|-------------------|-------------------|-------------------|------------------|---------------------|---------------------|
| Transportation and processing ⁽¹⁾ | \$ 109,706 | \$ 107,391 | \$ 107,166 | \$ 105,561 | \$ 75,453 | \$ 1,014,725 | \$ 1,520,002 |
| Interest expense on term debt (Note 11) ⁽¹⁾ | 20,246 | 20,246 | 16,871 | — | — | — | 57,363 |
| Purchase commitments and other ⁽¹⁾ | 10,521 | — | — | — | — | — | 10,521 |
| TOTAL COMMITMENTS | \$ 140,473 | \$ 127,637 | \$ 124,037 | \$ 105,561 | \$ 75,453 | \$ 1,014,725 | \$ 1,587,886 |

(1) Commitments which are denominated in US dollars were converted into Canadian dollars at the December 31, 2023 exchange rate of US\$1.00 = C\$1.3226.

25. RELATED PARTY TRANSACTIONS

Athabasca has determined that the Company's key management personnel consist of the Company's directors and officers. The compensation and other benefits paid to key management personnel are as follows:

| | Year ended December 31, | |
|---|----------------------------|------------------|
| | 2023 | 2022 |
| Salaries, fees and short-term employee benefits | \$ 4,408 | \$ 3,948 |
| Stock-based compensation | 52,114 | 21,870 |
| TOTAL EXECUTIVE COMPENSATION | \$ 56,522 | \$ 25,818 |

The increase in stock-based compensation to key management personnel is primarily driven by the increase in the Company's share price and its impact on the stock-based awards.

26. SUPPLEMENTAL CASH FLOW INFORMATION

Net change in non-cash working capital and other liabilities

The following table reconciles the net changes in non-cash working capital and other liabilities from the consolidated balance sheet to the consolidated statement of cash flows:

| | Year ended December 31, | |
|--|----------------------------|-----------|
| | 2023 | 2022 |
| Change in accounts receivable | \$ (10,621) | \$ (658) |
| Change in prepaid expenses and deposits | (848) | 3,289 |
| Change in inventory | 14,412 | (13,862) |
| Change in accounts payable and accrued liabilities | 3,615 | 14,115 |
| | 6,558 | 2,884 |
| Other items impacting changes in non-cash working capital: | | |
| Change in cash stock-based compensation liability (Note 15) | 6,173 | 8,240 |
| Unrealized foreign exchange gain (loss) related to working capital | 1,283 | (1,142) |
| | \$ 14,014 | \$ 9,982 |
| RELATED TO: | | |
| Operating activities | \$ (525) | \$ 8,970 |
| Financing activities | 2,579 | — |
| Investing activities | 11,960 | 1,012 |
| NET CHANGE IN NON-CASH WORKING CAPITAL | \$ 14,014 | \$ 9,982 |
| Cash interest paid | \$ 26,633 | \$ 29,747 |
| Cash interest received | \$ 11,045 | \$ 2,983 |

27. SUBSEQUENT EVENT

On December 19, 2023 Athabasca announced that it entered into transaction agreements ("Transaction") to create Duvernay Energy Corporation ("Duvernay Energy") with Cenovus Energy Inc. ("Cenovus"). The Transaction closed February 6, 2024 with an effective date of January 1, 2024. Duvernay Energy is a privately held subsidiary of Athabasca. Athabasca and Cenovus have contributed assets into Duvernay Energy combining Athabasca's existing Duvernay assets, Athabasca's new 100% working interest Duvernay assets and Cenovus' 100% working interest Kaybob Duvernay assets. Athabasca owns a 70% equity interest in Duvernay Energy with Cenovus owning the remaining 30% equity interest. Duvernay Energy will be managed by Athabasca through a management and operating services agreement. Duvernay Energy's Board of Directors will include three members nominated by Athabasca and one member nominated by Cenovus. Duvernay Energy has a \$50 million undrawn credit facility.

With the completion of the Transaction, Duvernay Energy will operate as a subsidiary under Athabasca's control and will be included in the Consolidated Financial Statements.
